- Consultancy	Guiding students in conducting their research projects and Bachelor's thesis
How are personal research activities reflected in teaching activities?	Teaching and research are related. While teaching, I observe, assess, provide feedback and evaluate. This is a step in making a research by observing, collecting data and then making an analysis based on the theory we have learned. This is necessary to create a conducive learning environment, as well as to encourage and motivate students to be more active as expected.
