- Consultancy	Guiding students in conducting their research projects and Bachelor and Magister's thesis
How are personal research activities reflected in teaching activities?	Teaching and researching are to a significant extent inter-connected. While teaching, I observe, assess, provide feedbacks and evaluate. These steps allow data collection for subsequent analysis to gather evidence-based understanding for making necessary continuous improvement. Based on some research I conducted, clear rules, clear instructions, group works and peer assessments are important features of an effective classroom management I successfully apply in my classrooms. They are required to create a learning environment that is conducive, encouraging and also well-controlled as expected.

Work experience:	
- General	
- Activities as an Expert:	
Publications:	1. Lestari, Indah. (2020). Morris' semiotic in religion perception and conception in Gane of Polinaki traditional wedding ritual in Kulawi
