Activities in the Areas:	
- Further Education	
- Research	Conducting research on the impacts of multimedia system and information system implementation.
- Consultancy	Guiding students in conducting their research projects and Bachelor's thesis
How are personal research activities reflected in teaching activities?	Teaching and researching are to a significant extent inter-connected. While teaching, I observe, assess, provide feedbacks and evaluate. These steps allow data collection for subsequent analysis to gather evidence-based understanding for making necessary continuous improvement. Based on some research I conducted, clear rules, clear instructions, group works and peer assessments are important features of an effective classroom management I successfully apply in my classrooms. They are required to create a learning environment that is conducive, encouraging and also well-controlled as expected.

Work experience:	
- General	Consultant for English proficiency improvement of PT. Nusantara Baskara Jaya's human resources (2016-2017)
- Activities as an Expert:	Delivering trainings and workshops on language education, inclusive education, assessment; conducting a collaborative research project of the Australian National University and Australian Department of Immigration & Border Protection
Publications:	1. Nurul Adhayanti, Fathan Triyanto Nugroho, & Romdhoni Susiloatmadja. (2023). Sistem Pendeteksi Wajah Bermasker Secara Real Time
