How are personal research activities reflected in teaching activities?	Research and teaching are interconnected. When teaching, I indirectly take steps first, starting from observing, assessing, and giving feedback, to evaluating. These steps are like procedures in conducting research. It has an impact on the final results of teaching activities given to students in the context of the level of understanding that has been fulfilled. If not understood, then analyze the aspects that need to be improved in order to create a conducive teaching environment and support the achievement of graduates in their respective scientific fields as expected.
